

When I see red...

I see CHD (Congenital Heart Disease) being the #1 birth defect

When I see red...

I see the lifesaving blood given to CHD patients in surgery

When I see red...

I see a lifelong disease that is severely under-funded

WHEN YOU SEE RED...

When **YOU** see red, **THINK** of the 1.8 million people living with CHD in the United States.

When **YOU** see red, **SHARE** what you know about CHD with the people in your life.

When **YOU** see red, **ACT** and visit www.MendedLittleHearts.org to find out how you can bring CHD awareness to your community.
